Switched Babies  
It was cold that late  
day in August when I  
heard Arlene was dead and I  
supposedly had another sister.  
~~Our~~ lives were destroyed  
after that. We had no  
privacy they always harassed  
us. Five & half years later  
my other sister comes home  
During those five years life was  
hell for all of us, it still is  
because we haven't found out who  
did it.
